## **EELD Receives 2009 Illuminating Engineering Society Award of Merit**

Salt Lake City, UT – Electrical Engineering & Lighting Design (EELD) recently received the 2009 Award of Merit for interior illumination of the new Uintah Recreation Center in Vernal, Utah.

EELD partnered with EDA Architects to complete this 80,000 sq. ft. project. The center won the Edwin F. Guth Memorial Award for Interior Lighting Design at the regional level and the Award of Merit at the national level. These recognitions are part of the Illuminating Engineering Society of North America's annual recognition for superior lighting design.

Uintah Recreation Center is one of two projects in Utah to receive the national Award of Merit recognition. It is currently awaiting results from the international judging.

Uintah Recreation Center features a lap/competitive pool, a leisure pool with two slides, a double gymnasium, an indoor running track, aerobics and dance areas, free weights and cardio areas and a 36' tall climbing wall.

EELD llc is a minority-owned business established in Salt Lake City. We specialize in power distribution, fire alarm systems and lighting systems. We are excited to continue growing with energy-efficient advancements and unique lighting techniques in the electrical consulting field.
